RE: FAST Lane Designation for Canada Bound Trucks

The Ambassador Bridge would like to advise all of its commercial customers that are fully FAST compliant of the following improvements for Canada bound FAST trucks.

Canada bound FAST trucks will be allowed to use the left lane to access the CBSA FAST Inspection booths during certain hours Monday through Friday. These hours will be dependent on traffic volumes at the time and may be adjusted throughout the day. Variable message signs located on the US toll plaza areas will indicate when the left lane is available. Messages will read “**FAST Trucks Left Lane**” when the lane is open.

We thank you for your cooperation in advance in order to make this efficiency improvement a success.

The Canadian Transit Company/Detroit International Bridge Company
